Services Provided: Daily Commercial Cleaning, Washroom Services & Window Cleaning

“THE TRANSITION WAS SMOOTH AND NATURAL”

The transition was smooth and natural, as if we had just expanded our own team. The arrival of aZtec felt like we had increased our security too, with Monica (our cleaner) discreetly alerting us to an open window or door. This has not only protected our assets, but also established trust and honesty between us.

“AZTEC FORMED PART OF OUR MOVE”

When we relocated to new premises 3.5 miles away, aZtec formed part of our move. Again, the change was flawless with the team making suggestions to further safeguard our business. This feedback prompted us to install privacy blinds.

“THE SERVICE WE RECEIVE IS PERSONAL AND A JOB WELL DONE”

aZtec Commercial Cleaning are easy to do business with. Their open book and rolling contract offer transparency and flexibility. Their commitment is evident during the regular client reviews, exchanging constructive feedback to accommodate change if and when necessary. They have accommodated all of our requests which extend to glass and carpet cleaning and automated provision of kitchen and bathroom supplies.

aZtec provide ongoing cost savings to our organisation, by never overselling their services and products. We have recommended aZtec to our neighbours in the past and will continue to do so in the future. Thank you for adding value to our business!
